TRENCH OCCUPATION AIMS OUTLINED BY OBSERVER

'Man Who Knows All About Ruhr'

been quite the most sought-after man in New York City. Square-built, smooth-shaven, with thin hair turning gray, Maj.

Square-built, smooth-shaven, with thin hair turning gray, Maj.

Davis is generally referred to as "the man who knows all about the Ruhr Valley."

Of a modest nature, Maj. Davis does not prespect to know anything, but the records of the State Department do proclaim his ability, integrity and valued service up to the time American quit the Rhine.

A St. Louis lawyer, although a Kentuckian by birth, who went overseas with the Elghty-ninth Division, commanding a battalion of machine-gunners, Maj. Davis, after the armistice entered the Rhineland with the American Army of Occupation and eventually became civil-affairs ofneer of Cohlenz.

His intelligence was of such a quality that after hig demobilization from the Army in November, 1919, he carried on for the State Department as an "unofficial observer" under Maj.-Gen. Henry T. Allen and Col. David L. Stone, both of whom have preceded him back home. He wore the title of "executive officer of the American department and American legal adviser with Inter-Allied Rhineland High Commission."

EEEPING HIM BUSY

The Arizona Supreme Court to day, in affirming a decision against the Arizona Copper Company, refused to consider a new point raised by the defendant, which is sought to show that the compainment document. The cost to the United States of the American Army of Occupation and eventually became civil-affairs officer of the Rhineland to see how all nations could best work together to heal old sores and build up a new order recognizing that no good thing in all history ever sprang or can spring from from the roots of fear and hate.

I West Sixty-seventh street. Through it all the former commander of machine-gunners has carried himself with rare tact and no little fortitude. Until he has made his final unbosoming at the State Department in Washington, and has been released wholly to printer's link, Maj. Davis is running his talk along restricted lines. "I sympathize with the French people tremendously." said Maj. Davis today. "I wish they could get that which they vitally need; that is, the assurance of their safety, their children's safety and their deep for her safety, and then did not get it.

FRANCE FEELS CHEATED

FRANCE FEELS CHEATED

**Manual American department get and an appreciate how France must facil when she surrendered all of her aspirations and paid the price for her safety, and then did not get it.

FRANCE FEELS CHEATED

her aspirations and paid the price for her safety, and then did not get it.

FRANCE FEELS CHEATED

"All of France's post-war policies are addressed to retrieving her lost position, and by her own efforts to assure her safety, which she feels the world first promised and then denied her. The settlement of the economic questions of reparations cannot even begin to be made until the political question of France's future safety is settled to her full satisfaction."

Maj. Davis stoutly insists that financial gain was not France's purpose in going into the Ruhr. He continued: "France feels that the has been left out in the cold and alone to face a growing and again powerful Germany. She sees England war-weary, America committed to a policy of isolation, Russis in chaos and Italy an old KEFNAN ADMIDED.

has been left out in the cold and alone to face a growing and again powerful Germany. She sees England war-weary, America committed to a policy of isolation, Russia in chaos and Italy an old enemy who feels herself over-reached at the peace conference and somewhat determined to return to her old status of enemy of France. RELEASED ON BAIL

NEW YORK, April 16.—Albert ce France decided that she move into the Ruhr for two, one political and the other de. Of the two the political Keenan, the Broadway butterfly, conomic. Of the two the political question is to her of far greater importance; it having to do with life rather than the purse. That France well knows sho cannot force the Germans to work in the Ruhr for France I heard well stated by a French army officer shortly before I left the Rhine. He safid: 'You can take the bayonet' and make a man dig ditches, but you cannot take a bayonet and make a man design a successful libcomotive.'"

Keenan, the Broadway butterfly, who was found chloroformed to death in her apartiment on March 15, today was released in \$2500 bail pending trial on a charge of violating the law relating to possession of firearms.

Guimares was arrested as a mandrial witness the 'day Miss Keenon's body was found, and was held later on the firearms charge when police found a loaded revolver in his rooms.

the world, adding:

"If there is the slightest failure in willing co-operation among the workers and salesmen, the Ruhr will not produce enough to feed the people dependent upon it."

Mr.j. Davis does not fancy the American habit of dubling a man business leaders of the United States to attend a conference at Chicago May 24 and 25, to discuss the professed canalization of the Europeans never graded themselves in such a queer fashion, thus admitting a prejudice, "There is only one kind of proto be, and that is pro-just." he declared. "Gen. Allen, the American member of the Inter-Allen Rhineland High Commission, who served as well as the commander of the American Army of Occupation in Germany and who retired from Army service Saturday, was of that mind. The American position on the high commission was that of a stabilizer, and together with the English member we were always constraining Germany and restraining France and Belgium."

Ist A. P. NIGHT WIRE.]

DULUTH (Minn.) April 16.—
The American Farm Bureau Federation will invite industrial and business leaders of the United States to attend a conference at Chicago May 24 and 25, to discuss the proposed canalization of the St. Lawrence River and "other matters of great interest," Charles P. Craig, executive director of the Great Lakes-St. Lawrence Tidewater Association, announced today.

promises to authors and some composers as well.

In the United States are about 11,000,000 homes wired, for electricity, each a customer for electric current from some lighting company. These widely scattered electric current buyers are the potential customers of the wired radio corporation, provided the lighting companies can be persuaded to permit attachments for wired entertainment and thus sell their electric current with or without the wired radio entertainment. There is also pending a difficulty with respect to some of the wired radio patents—but that is another day.

No mart of a book is so intimate their electric current with or without the wired radio entertainment.
There is also pending a difficulty
with respect to some of the wired
radio patents—but that is another
story to be told another day.
No part of a book is so intimate
as the preface. By the same token, nothing that comes to a newpaper from a press agent is half
so delicious as the appeal for its
publication, BURNING SHIP TO MARK

Take the "appeal" attached to an article about a movement started in New York to "knock the commercialism out of Mother's Day." It was far more interesting than the article and much shorter. It follows:

"To the Editor:—For the first time in your experience you are being asked for some news space in connection with a movement for which no money is raised and for which no money is asked. A few score of business men and public spirited women, indignant at the discovery that Mother's Day (May 12.) has been used in the past to sell millions of carnations at 25 cents apiece and lapel buttons by the carload at 10 cents apiece, have banded together to wipe the stain of commercialism off that sacred day.

"Everything is volunteered—not a panny is asked for, handled or accepted. This publicity material is coattributed—not a cent is pain for it. So with all the other factors; the idea is to demonstrate that Mother's Day need not be debauched by the flower and button peddlers and little children everywhere made to feel that if they cannot dig up 25 cents for a piece of merchandise they cannot fitting ly observe the day! It will be an interesting experiment: it is deemed to be worth while.

"Will you not put your powerful shoulder to the wheel, editorially and otherwise, and help push this thing through to success."

NEW YORK April 16.—An electrical engineer was speaking: "As for the radio broadcast entertainment, enjoy it while it lasts; but there'll come a time when it'll no longer come free from the sky."

Numerous projects are on foot to slot-meter radio entertainment and draw revenue from its passage through the air. Authors and composers are howling for royal-ties on jokes and music broadcast into radio-receiving sets. Some of the smaller broadcasting stations, technically reliable, continus to feed satisfactory programs of engage of the service redger of the

WOMEN ARE INJURED BY WILD AUTO

Many Are Periled When Car Careens Driverless Down Fourth-Street Hill

Two women were injured and a panic among pedesthians was narrowly averted when an automobile parked on the hill near Fourth and olive streets slipped its brakes and ran wild to Hill street, where it crashed into the curbing.

The action of Traffic Officer Driscoll in leaping on the running-board of the careening machine and guiding it into the curb in order to halt it is believed to have aved a number of women and children at the intersection from serious injury.

The two victims are Mrs. Lillian E. Meister of 5229 South Main street and Mrs. Frances Smith of 415 South Grand avenue. Mrs. Meister is suffering from a wrenched back and Mrs. Smith from severe cuts and abrasions. Neither woman is seriously injured, physicians at the Receiving Hospital, where they were taken for emergency treatment, stated.

The machine is owned by W. K. Bertken of Mariposa.

CAPITAL ECHOES MUSSOLINI HOPE TRAVEL BY W

Favor at Washington

Immigration Suggestion to be

Lausanne Predictions Are Reiterated

(EXCLUSIVE DISPATOR.)
WASHINGTON, April 16.—Diplomatic officials of the government today expressed the hope that the

the Lausanne conference and following that a settlement of the
Ruhr question made by Premier
Mussolini in an interview with a
Public Legder cable service correspondent would be fuifilled.
They questioned, however, the
Italian Premier's implied suggestion that this country considers
Europe "down and out." The
"comeback of Europe" to which
the Italian statesman referred is
just as sincerely desired in this
country as abroad and, it is said,
that a hope to assist in bringing
this about has been the constant
aim of the Harding administration.

LABOR IDEA APPROVED

The more direct question concerning the United States—that involving additional Italian immigration—may soon be brought officially to the attention of the government. Prince Caetani, Ambassador from the Rome government, has in several public speeches indicated that his country stood willing to supply any particular class or character of labor which this country might require. It is understood that he will take the matter up specifically in connection with the shortage of farm labor reported recently by the Department of Agricultura. Italy, he will inform the State Department for transmission to James J. Davis secretary of Labor, is perfectly willing to make an arrangment for examination of immigrants so that only those desired will reach the United States.

INQUIRY TO BE PUSHED Without having had the matter officially before them officials of the Department of Labor said today that they would be glad to discuss such a suggestion. Existing legislation limits the number of Italian immigrants each year to 42,000, but there undoubtedly will be some change in the immigration laws by the next Congress, and ideas for suggested modifications in the law will not be rejected by Mr. Davis without thorough study. The Italian diplomatic representative, it is said, is perfectly

Players Even Up on First Eighteen Holes

BY BOB LOCKE

Willie Hunter, former British amateur champion, is now the holder of the Southern California amateur title. Willie sets this title through his victory yesterday over E. "Scotty" Armstrong at the Midwick Country Club. Playing a close game all the way. Hunter finally ended the match on the seventeenth hole by a score of 2 and 1.

In the morning round the two golfers after a terrific fight came to the eighteenth hole all even. Armstrong had at first been the weaker player of the two, but on the last few holes pulled a rally and saved himself for the time being.

Before a large crowd they teed off again in the afternoon, and there Scotty started his uphill fight. His first drive was topped and his second shot hit the sand trap short of the green. Hunter got two nice shots and putted out for a four.

"SCOTTY" RAILIES

"SCOTTY" RAILIES

The next hole Armstrong came back strong with a long drive and an approach that put him within a few feet of the pin. Hunter played short and the score was even again. Hunter missed his put and from the look that came over his face was not altogether pleased.

The third hole was halved. Hunter put his drive in the rough and it looked as if Armstrong would take the hole, but Willie placed his second shot beautifully on the green and putted out in one. Again on the next hole Hunter put his drive in the rough. Throughout the contest Willie was apparently trying to force his drives, with the result that he was in bad ground a good part of the time.

On the last hole Hunter, for the last time, made rough ground and in playing out barely got his ball on the green. Armstrong played on shots, both a little short, but he had a good chance to halve the hole. Hunter, being away, had a good twenty-foot putt. With all the unconcern in the world, he stepped up and pipped off a putt that ended the match.

It was the opinion of the gallery that it was one of the best title matches played in the south for some time. Hunter, a newcomer, seemed to be a popular winner, although the local fans were strong for Armstrong.

MISS KAVANAGH BENJAMIN

State Champion Leads Field With 92 Score

in Fourth Place Eighty Tee Off for Women's

California Title

BY HAY CHAPMAN (EXCLUSIVE DISPATCH) BAN FRANCISCO, April 16.— Miss Doreen Kavanagh, California women's champion, led the field of eighty competitors in today's qualifying round for the State championship at the San Francis-co Golf and Country Club. The

SPRINTS TO FORE

out in one stroke more than Miss Kavanaugh.
From the turn the indomitable runner-up had birdies at the tenth and twelfth with a par 3 at the stiff eleventh. The thirteenth cost her one over par, and for the four holes she was only one over 4s. But her excellent chance to win the medal was spoiled by finishing with five 5s. However, there was safficient consolation in her capital

* SCORES SEEM BULKY

The scores look distressingly large in bulk, but there's an obtivious reason, or rather several of them. In the first place, there was an uncomfortable drizzle most of the morning, and for a time it looked as if the ancient and dishonorable tradition of Ingleside was once more to be fulfilled, that whenever an important women's tournament is scheduled. Jupiter promptly turns on the taps. The course played heavily, and here's the main reason for the big scores—ti is 6425 yards longer than the best women goiders in the world and the best architectural judgment have designed for the national women's course, which is being built under the direction of Miss Marion Hollins on Long Island. tty Armstrong (top) gave Willie Hunter (below) a noble battle in the thirty-six-hole final for the Southern California amateur golf title at Midwick yesterday and didn't give up the ghost until the seventeenth hole.

Miss Marion Hollins on Long Island.
With the exception of Mrs. Max Rothschild and Mrs. Dan Dillman, the full strength of the north is represented, while only two of the south's strongest players are in the field in Miss Kavanagh and Miss Cameron. The draw puts them in separate brackets and they will not meet unless it be in the final. Meanwhile the energies and ambitions of the local talent are set toward stopping one or both teams in the next three rounds, the first of which starts at \$:30 tomorrow. The scores: BY JOHN J. McGRAW

[EXCLUSIVE DISPATCH]

NEW YORK, April 16.—The world's champions are all set for the opening of the National League championship season of 1923. We get of the cour start in Boston with Christy Mathewson's Braves tomorrow. It is very appropriate that such old pals get our send-off together. Btill friendship ceases on the field of battle. Off it our paiship will be resumed and with renewed ardor, for I am greatly pleased that Matty is wiss thank leaves that he have his marginal example did so much to might for the course that he have his marginal example did so much to might for the course that he have his marginal example did so much to might for the course that he had be the same that he had been same that he h

back is the game that he by his masterful example did so much to uplift. It consider my present team to be 25 per cent stronger than the one last season. I say this advisedly and with full confidence. It is also to be uplaced to be uplaced

winner, alone last season. I say this advisedly and with full confidence.

As my aggregation of 1922 won the world's series of that year it might be imagined that I am predicting they will repeat for the might be imagined that I am predicting they will repeat for the third time in succession next October. That does not necessarily follow, however.

What if other teams have improved in like percentage or even bigger? That I have considered possible. Consequently I refrain from claiming anything for my team this season other than that they will be in the National League race right up to the last game and I hope from start to finish. That they will, I feel reasonably sure.

WANTS THREE

Believe me, I fiave no higher ambition than to win three world's series records by winning the accomplishment of smashing all world's series records by winning the series records by winning the series in succession and I shall leave nothing undone to reach that I shall have every one of my players working as conscientiously and energetically as their manager in the accomplishment of smashing all world's series records by winning the first of the series records by winning the series records by winning the series records by winning the first will give me time to spend in the development of Earl Webb.

WANTS THREE

GOLF MEDALIST AND SOULES TO MIX UP

"Red" Cole Tackles Wing in Semi-Wind-up at Doyle's Margaret Cameron Finishes Vernon Arena Tonight

Fight fams got a surprise when Young McGovern beat Salior Ashmore last week and they're going to get another one at Vernon tonight.

This "low-down" information comes from Buddy Soules, who is scheduled to meet Joe Benjamin in the main event. According to all expert opinion, Mister Soules will not last long enough to make the judges devote any thought to a decision. Popular opinion is that Buddy will be floundering on the canvas inside of two rounds.

"I don't think anything of the kind will happen," decilares Soules. "Pve got two fists myself and I think I have can stun when they land. I've had enough ring experience to give me an even break with Benjamin and I think I have just as good a chance to drop him as he has to floor me. At any rate, if I ever get him going backward, he's going to look terrible.

Matchmaker Wadhams will introduce a number of strange faces on this evening's preliminary card. Billy "Red" Cole, one of Benjamin's knockout victims, will meet "Tonghey" Wing, of Fordand in se semi-wind-up Cole is a hot favorite to win.

One of the snapplest fights of the night is expected when "Irish Alex" Medonald tackles Billy Kennedy, the conqueror of George Marks. McDonald's appearance in the ring always guarantees a fight. Bnd Nolan, an eastern middle-weight, will tackle Jack Martin. Art Springer will meet a new bantamweight, Jimmy Martin. Martin is a very ciever boxer. Eddie Brown, the semantion of last week's show, will meet Jack Price and Al Manning and Jimmy McKenna. hantamweight, Jimmy McKenna. hantamweight, Jimmy McKenna. hantamweight, will open the show.

Harry Lee will handle the preliminaries and George Blake will referee the last last three bouts.

MADISON SQUARE TO

PUT ON SNAPPY TILT

The Madison Square Garden will put on one of their best bills to morrow night, when in the main event Ted Frenchie and Sunny Goodrich mix. These two boys have pleased audiences for some time, and tomorrow they will be in top form to show to perfection.

The complete card will be as follows:

Ted Frenchie and Sunny Goodrich mix. These is a but footer, bats and throws right handed.

Les Sheehan, star utility man for Sacramento last Beason, it at see ond base. Waiter Fearce, also with Sacramento a year ago, is at short Pearce is young and en the up grade. Lewis has changed his tyle at bat.

league breaks out. No great immediate or lasting upset

are expected. Experts with-out an exception seem to have picked the two New York clubs to repeat. True, experts as a rule bat only about 50-

With Sisler's condition as described in the dispatches, the question of Pract's ability to repeat and Shocker's to continue his amazing pace, the St. Louis Browns, runner-up in the American League last season, may not be as threatening. Detroit strikes one as potentially the most dangerous adversary of the Yankees. Frank Chance's efforts to lift the Boston Red Sox out of last place will be observed with interest.

Wheener Dell got away badly, but that was to be expected following two weeks of incapacity. Should the big right-hander round to, as he probably will, the Vernon staff will be at least 25 per cent stronger than iast season, provided Jakie May can approximate his showing of 1922.

True, Essick was forced to use an abnormally large number of pitchers in two games last week, but pitchers sitting on the bonch do not win games. A game is as important now as six months later. And in contemplating the dope, it should be recalled that Essick in achieving a position at the head of the league did not have his full strength. The first series he was without the services of J. Carlisle Smith, last season the club's most dangerous hitter, and a semastional fielder. Also, during this fortnight, Dell could not lend his efforts until the final game. With the maximum power of the club at his disposal, Eastek would have won even more games.

COAST AVERAGES

Paul Strand of Sait Lake, who lead the Pacific Coast League in batting in 1922, is again at the top of the list. Strand has made twenty-two hits in forty-nine times at bat for a mark of .449. Seven of

bases.

Bert Ellison, Seal firstbaseman, and Rod Murphy, Vernon firstbaseman, are tied for second place with 444. Ellison leads all batters in home runs with five and in extra base hits with eleven.

Gene Valla, San Francisco outfielder, who is playing his second year in professional baseball, is fourth with a mark of .442.

Peters, Salt Lake catcher, follows Valla with .441. Pete Schneider, who leads in three base hits, is sixth with .432. Joe Wilholt of the Salt Lake Club, with .429 is seventh. Six of the nine league's leading batters will play at Washington Park in the series between Salt Lake and Vernon, which begins this afternoon.

San Francisco and Salt Lake are tied in club-batting honors with 319. The up-to-the-minute averages, as compiled by Leo Moriarty, follow.

CLUB BATTING

GOLF MEDALIST

BOWLERS TO RESUME TOURNEY TONIGHT

Vernon Tigers have been scrutinized by the fans here and have not been found wanting. They strike one as stronger than last season. Frank Shelienback, by regaining his effectiveness, seems to have "made" the pitching staff. Perhaps even as important is the work of Al Miller, southpaw, who showed wonderfully under fire in the second game Sanday. Essick appears to have developed another good one. Miller on this occasion gave as fine an exhibition of pitching as ever was displayed by a youngster in this league. He showed a world league. He showed a world league. Shellenback's recovery and the development of Miller should offset any decline in the veterans, although no symptoms of a decline have been visible. Bill James unfuried a game last week which would win for him in nine out of ten starts—eight at the very least.

MISS KAVANAGH

Competition in the individua competition in the individual bowling championship tournament for the Southern California title, will be resumed tonight at the An-gelus Bowling Academy Alleys, after a week's rest. Five matches are billed.

SRORT END SEASON AT TIJUANA ON SUNDAY

> "Blaze of Glory" Will Mark Closing Period Across Border Thursday

In the language of Baja California, that domain just below the international boundary line which separates Southern California from Mexico, it will be adios to the running horse at the Tijuana track next Sunday until the opening of another season rolls around.

Lewis H. Falk, an official of the Tijuana Jockey Club of which James Wood Coffroth is president, arrived in Los Angeles yesterday to spread the word among race fans that the final race of the long Tijuana season wil be decided Sunday afternoon.

"The track is 'dark' for Tuesday and Wednesday, but racing will be resumed Thursday, which will usher in 'the blaze of glory,' as the closing period will be called," said Falk.

He reported that President James Wood Coffroth is offering liberal purses for the last four days, while for Sunday, which will close the season, there will be the Westlake Handicap, with a \$5000 purse. The Sunday program will comprise ten events.

Senator 'Cyclone' Billy Lyons of Denver, New York and other points, and who is one of the country's best-known sportsmen, also arrived in Los Angeles yesterday. He brought up from the border a personal message to Jack Dempsey, heavyweight champion, from President Coffroth. It read: "Be with us at the closing."

BABE RUTH DENIES CHARGES OF GIRL

NEW YORK, April 16.—George Herman (Babe) Ruth, stellar home-run hitter of the New York Yankees, filed a formal answer today to the \$50,000 damage suit brought against him by Delores Dixon, in which she charged that Ruth was the father of her unborn child.

Ruth entered a general denial to each allegation in her complaint.

Some "Carbon" Clings hard and flint-like-

> Some Blows Out with the exhaust

THERE are two kinds of carbon-aceous residue—"carbon." All motor oils deposit one kind or the other, as every maker of oil knows.

The harmful "carbon" is hard and flint-like, It acts as an abrasive, wearing cylinders, pistons and rings. It is hard enough to score cylinders. It has a tendency to cling, and must be burned or chiseled out of motors.

Causes "Knocking" This hard "earbon" becomes incandescent, re-igniting your gasoline, which causes "knock-

It attaches to spark-plugs and causes short circuiting—the motor misses.

Particles clog the valves. The valves leak. Therefore, some of your gasoline is wasted both before it can do any work and while it is working.

And this flinty, elinging "carbon" is deposited in quantities two to three times as large as the

Article XLIII

BY BARCLAY L. SEVERNS

A few of the common expressions you hear every day: He gets my goat; or that thing gets my Nanny, meaning goat. The boss got my goat for fair this morning; the boy at the soda fountain makes the remark that a certain old lady who drops in every Tuesday at noon certainly gets his goat. You have heard these sayings many times, used the expression yourself, had it used by others in referring to you. Why?

Because your nerves were not what they should be; whether you go up in the air at some little thing that you form a habit, and make it much easier to it is true. Nothing gets a man's go off the handle at something of the first tending and you will find that you had no when the human machine is over the bisreet tanking for the servance its the street tanking for the servance is the street tanking for the servance is the street tanking of everyone is the callifornia, the servance is the street tanking of everyone is the street tanking of everyone is the street tanking of everyone is the street tanking of the servance is the street tanking of everyone is the street tanking the control of the street tankin

for a time, finished strong the second week.

Seattle, which started poorly, seems to be generating more power. It is a good ball club. Wolverton is under the handicap of having been out of the game several years. He is now new in the league, and a new manager always is at a disadvaptage. But he will let the other seven clubs know that they have been in some toughball games before this season and

STAGE HIKE ON SUNDAY

The two-day hiking trip to Glenn Ranch, looked forward to for some time by the members of the Muir Hiking Club from the B. H. Dyas Log Cabin, is set for next Saturday and Sunday. The hikers will be in charge of Mrs. E. B. Gillett and will make the trip to the ranch, now changed to Tally's Ranch, by auto stage. From the ranch, a trip afoot along Lytis Creek will be taken.

WHAT Is Double Gum-Dipped?

Car-owners are naturally interested in just what the double gum-dipping process means in tire-building. For its importance to mileage performance has attracted attention

This improved process in cord tire construction is rarely found in other than Firestone Cords. Extremely difficult to carry out, most tire manufacturers consider its expense pro-

Yet Firestone has now so perfected and simplified gum-dipping, that notwithstanding their many advan-By this process the cord fabric is dipped in a heavy solution of liquid gum or rubber. When thoroughly saturated it is removed and allowed

to dry. Thin coats of sheeted rubber

are then pressed upon each side of the cord fabric in a process call "calendering." Thus there is doub... assurance that each separate cord is completely submerged in live,

The deterioration of tires caused by internal friction is well known by experienced car owners. Excessive heat is generated that literally burns away many miles of service.

In Firestone Cords, internal wear is practically eliminated. Gum-Dipping makes them stronger and more resilient. It is largely responsible for the buoyance and easy-riding Firestone users experience.

There is a good dealer near you who sells and services Firestone Cords. Go to him this month if you are looking for the way to reduce

LOSS FROM **FORGERY IS** SUIT BASIS

Atlanta Bank Institutes Action Against Depository in Philadelphia

(EXCLUSIVE DISPATCE.)
[Couraght, 1923, Public Ledge.]
ATLANTA, April 16.—Suit for
recovery of \$8.568.50 and interest
at 7 per cent was filed in the ATLANTA. April 16.—Suit for recovery of \$3,568.50 and interest at 7 per cent was filed in the United States District Court here yesterday against the Fulton National Bank by the Philadelphia. National Bank of Philadelphia. The suit, it is said, is an outgrowth of forgeries for which A. H. Cain an insurance apperintendent of Atlanta, now serving a five-year sentence, is said to be responsible. It is asserted that an insurance company issued drafts made payable to Atlanta through the Philadelphia National Bank. It is further stated that these drafts were handled by the Fulton National Bank, which, it is said guaranteed the indorsements.

When it was discovered that the indorsements were forgeries, the Philadelphia bank reimbursed the insurance company, but efforts to collect from the Atlanta bank, however, have failed, the petition charges.

The Flapper Knew

Some one had been injured. A crowd gathered around a fallen man on the sidewalk at Washington and Illinois streets. He writhed and then stiffened, exhibiting the symtoms of, a person having an epileptic fit.

"The man is an epileptic," decided a bystander.

"Naw, he's a Bulgarian," corrected a flapper, disgustedly, shifting a wad of chewing gum, the better for argument.—[Indianapolis News.

New Method to Administer Gland Treatmen

R. ALBERT LOWENTHAL of Chicago, consulting physician for the late Pope Leo XIII, and world authority on glands of the human body, says, according to a recent news dispatch, that a gland operation is really unnecessary.

This famous physician con-tends that equally beneficial re-sults may be obtained by taking glands in some desiccated form.

The new scientific treatment Glandogen, is prepared in con-venient tablet form, and the for-mula combines the extract of vital glands of healthy young animals with other efficacious ingredients.

The Zone of the Ozor

There are times when the syncopated symphonies of the long-fingered fiddlers fall a responsive chord among your taut nerves; when the taste of your "chicken a la bin mixed with the nauseating sameness of the waiter's smirk and you long for reality

This is a sign, as sure as heat-waves and shirt sleeves and panamas, that old Fahre climbing toward the century mark and you want to "get away."

When this time comes—as it surely will—don't rush away to some far-off resort of demerit, but remember-right here at hand-just a few minutes' drive from the city, lies

FOR LIQUOR EXPECTED

QUEBEC, April 16.—A reduc-on in the price of alcoholic liqtion in the price of alcoholic liquors and wines is expected to be anneunced after May 1 by the Quebec Liquor Commission. That body will complete its second year of operation on the 30th inst. and though no financial statement will be available before the end of the fiscal year in June, it is said the surplus will reach over \$5,500,-300 as compared with a little more than \$4,000,000 last year. It is understood that recently there was a misunderstanding between some of the members of the liquor commission regarding the prices charged and that finally an agreement was reached to cut down the charges.

Last Vineyards at Fontana BEING SOLD

OUR opportunity to own an irrigated vineyard tract on the beautiful Fontana Estate, 2 hours from Los Angeles over paved boulevards or by electric train, will soon have passed. The vineyards now for sale are the last the Fontana Farms Co. will put on the market. These certain income-producing tracts are going fast. The low price and easy terms extending over 5 years make a fine investment for men and women with small capital who wish to make their savings count in planning for the future.

. FAMOUS GRAPE DISTRICT

Fontana Irrigated Vineyards are in the heart of a worldfamed wine grape district—the district that includes the Virginia Dare vineyards and the famous Guasti winery with its grape lands of about 5000 acres. Here vines a century old yield heavy crops that bring big profits, while nearby vineyards planted in the past half dozen years are also making their owners wealthy. New plantings of grapes usually come into commercial bearing the third year under irrigation.

OUR REMARKABLE OFFER

We offer tracts of 5 acres or more at \$500 per acre, on the following easy terms: \$125 cash per acre; \$25 per acre each year for 3 years; \$125 per acre the 4th year; \$175 per acre the 5th year.

We take complete cultural care of your vineyard, including irrigating, cultivation and pruning for 3 years, absolutely free to you.

We give you free with each acre of land a share of Water stock, conservatively worth \$200 per share, or more.

Your profits from grapes the 3rd, 4th and 5th years should help pay for a large part of your land.

MAKE MONEY WITH POULTRY

The Fontana Plan for Vineyard owners includes a remarkable opportunity for raising poultry under the most advantageous conditions. The company operates at Fontana one of the biggest and best managed White Leghorn farms in the world. Poultry raisers may buy the finest egg-producing birds at lowest cost; feed delivered at carlot prices. Eggs sold from them at top prices. Expert advice on all points for the asking. Fontana poultrymen make big profits. You quickly develop an income from your flock.

INVESTIGATE THIS PROMPTLY

There are 5000 acres of orange and grapefruit groves on this estate. It is a delightful place for a country home in Southern California. The school facilities are excellent. Riverside, Redlands, Pomona, Ontario and San Bernardino are all within an hour's drive. Act now. Call at our offices for full information. Telephone us or fill out the coupon and mail it. We wish you to see this land. We wish to tell you of many added advantages that space prevents us from men-

College do, and for not aligning themiselves with the old-established orders, desire to know why such is the case we might enlighten them to some extent. It would seem to us at least, that many people prefer remaining on the outside rather than accept so much that seems unworthy of credence, in the light of present-day scientific thought and discoveries.

There are reasons for much of the seeming alcoffness of the great majority of people from churches. and it is not all accounted for by attributing to them an irreligious or frivolous spirit. Some of the fivelity appears inside the churches when a high-salaried preacher, for instance, spends time and energy in trying to bolster up old-time myths and make it appear that the infinite is responsible

LOS ANGELES, April 14.—[To the Editor of The Times:] Inclosing an extract taken from this morning's Times relative to the hostility of the Vatican against certain theories, reminds that history seems to be repeating along this line; as for instance the Papal persecution of Gallieo for promulgating the astronomy of Copernicus, the Papal bull against the comet, etc. But. In the words of the ancient philosopher, "The world do move" just the same.

There seems to be anguish of spirit and consternation in nearly all of the older church organizations on account of what they call "irreligion." "Godlessnas" and

superstitious are having agues over the death of Earle Carnarvon, who uncovered the tomb of King Tut. after that dignitary had been buried 3000 years. fearing that Carnarvon's death was caused by some supposed curse pronounced against the "descrating" of the tomb. The facts seem to be that the Earle was bitten by a mosquito or a spider; that when he shaved and cut the pimple caused from the bite, blood poison set in and death ensued, just as would have been the case had he never seen nor heard of King Tut nor the ancient burial. It was the state of his blood, and its inability to throw off the poison, that resulted in the death.

Now. the only serious question is: What caused the state of the blood that made it impossible for it to throw off the poison? We read that the Earle was a smoker of cigarettes. For years before the great war we were taught that the cigarette was a poison, and most folks admitted it then. It has not come to pass that the cigarette has been purified, but simply the war conditions overcame the popular condemnation of the old-time "coffin-screws." If the cigarette user becomes inoculated with a poison on account of the use of this form of narcotic and the blood thus becomes so weakened that it is unable to throw off poisons, and Carnarvon was a cigarette why not go the blood poison or inability of the blood to throw off the small bit of poison received from the insect bite, then why not go to the more plausible theory of his death, and instead

The Complete Furnishing of

YOUR NEW HOME SHOULD INCLUDE

Welsbach GAS HEATERS

At this time of the year you need a gentle warm heat to take off the occasional chill. Next Fall and Winter you will need a constant, warm glow of heat. Welsbach Heaters will give you just the right degree of warmth at all times. Built on the most successful principles for heat production, they are unique in the yolume and quality of the heat they give, in the quickness and economy of their service. Glowers of special design are spaced for best combustion; burners of the Bunsen type produce clear, hot flames; a copper reflector prevents loss of any heat and give you direct benefit of all the clean, odorless warmth.

No home, even though elegantly furnished, is comfortable without heat. Welsbach Heaters will supply that need. There are six Welsbach Heaters in various finishes to choose from. Economical both to buy and to run, their Welsbach construction is guarantee of dependable, comfort-giving service.

Ask your dealer to demonstrate to you the self-lighter, an exclusive feature found only on Welsbach heaters. It banishes the inconvenience of matches or pilot light.

OF BUSY MARTS The following index will be New Rail Tariff Goes Into

Page

Consumers of manufactured goods in California are having rail shipments from Chicago and Midshipments from Chicago and Mid-dle West territory delivered to them today at reduced rates, rang-ing from 8 to 40 per cent. The transcontinental carriers, Southern Pacific, Union Pacific and Atchi-gon, Topeka, and Santa Fe, have each announced new tariffs applica-ble to a wide list of commodities to eachle tohers and manufactur-

ble to a wide list of commodities to enable jobbers and manufacturers in the territory contiguous to Chicago to compete more effectively with goods from the Atlantic coast transported by water.

Machinery, paints, glass, soap, refrigerators, nonperishable foodstuffs, lumber, wool and other items are specified in the rate schedules in operation for the first time today. The charges are designed to about equal the steamship rates on cargoes from the East, but there has been some fear expressed that the railroads will have to announce still further decreases in order to attract the volume of traffic desired.

If the campaign instituted by **PROSPERITY MUST TAKE** IN FARMER

has been some fear expressed that the railroads will have to announce still further decreases in order stared. The volume of training the volume of training decreases in order stared and and steel output normally delivered to this Coast will come by railroad superior of Pittsburg's iron and steel output normally delivered to this Coast will come by railroad superior of the traffic, but the service is necessarily come by rail.

Illinois Power and Light Corporation Bonds of Accepted Standards

Earnings that Assure

Income available for interest charges on the bonded debt of the Illinois Power and Light Corporation, is now more than twice interest charges. Authorities of utility financing have determined that this is a conservative operat-ing basis for utility companies of its character. According to these authorities, investors who own the bonds of this company have dependable assurance that interest will be paid promptly when due.

The business of the Illinois Power and Light Corporation is stabilized through division in electric, gas and traction activities. It serves a large territory in Illinois and several surround-

INVESTMENT FEATURES

(As summarized from the letter of the President of the Corporation)

HISTORY: The Earl Fruit Company, incorporated in California in 1887, is one of the oldest institutions of the kind in the West. Originally the company was a marketing organization, but in the last decade has expanded to include practically all co-ordinated lines of the fruit business. The scope of operations of the company extends over the entire United States and Canada and also includes a very considerable European export business. Through the controlling ownership of two of the largest auction companies on the Atlantic Coast, powerful influence is exerted in every field of distribution. Extensive facilities for fruit packing for ordinary and cold storage and warehousing provide for the products of the company properties as well as for those of many independent growers under contract. Under the consolidation, the company with its affiliations is an integrated institution covering every phase of the fruit business from the soil to the retail merchant.

SECURITY: These bonds will be secured by a first mortgage on 13,745.7 acres of fruit and farm lands and numerous packing-houses and warehouses strategically situated in the States of California, Washington, Oregon and Idaho; also a sawmill and box factory at Klamath Falls, Oregon. The lands in California aggregate 11,608.2 acres; in Washington, 1815 acres; and in Idaho, 422.5 acres.

APPRAISEMENT: All of the properties, including improvements, pledged as security for

these bonds, have been appraised by the Ar can Appraisal Company of Milwaukee, W value of that part of the property located at California is \$6,081,704.11; in Oregon, \$41,534.60; in Idaho, \$411,395.00; in Washington \$789,838.00.

ASSETS AND EARNINGS: Total re the Earl Fruit Company, including iary companies, are in excess of \$12. without taking into consideration good trademarks, patents, contracts, etc. In the turnover was in excess of \$44,000 As shown by statements prepared by Materhouse & Co., average annual as ings before interest and Federal taxes for past five years, 1918 to 1922, inclusive, in the control of the control

been \$903,688.74, or 3.66 times quirements on this issue of bonds. SINKING FUND: A sinking fund, better the December 1, 1924, will retire approximately 1,975,000 bonds before maturity. This fund may be accelerated through the sinking fund.

properties. PROTECTIVE FEATURES: The trus ture contains many stringent protects and among others provides that no lien such as reclamation, irrigation of districts, may exist unless cash or equipolation of the district debt approperties securing these bonds to the interior indebtedness, is deposited with the manufacture of the securing these bonds to the interior indebtedness, is deposited with the manufacture of the interior indebtedness.

LEGALITY AND TITLES: Titles will be guaranteed by the Title Insurance & Guaranty Company of All proceedings in connection with this issue of bonds will be passed upon by Mesera. Devlin & Devlin for the company, and Mesera. Gibson, Dunn & Crutcher, attorneys for the underwriters. opinion of counsel, Messra. Committee of the National Foreign date 1938 and 4½ per cent therereceived by the committee of the National Foreign date 1938 and 4½ per cent therereceived by the committee of the National Foreign date 1938 and 4½ per cent therereceived by the committee of the country language of the country of approxitill property of the committee of the country of the cou

ton market, in a continuation of ment, suffered another severe decline today under the lead of the old crop options. Pressure after the irregularly lower opening sentprices for May and July off more levels. Heavy selling of these contracts was traced to professional and southern sources, while support came from Japanese, scattered trade buying and some short trade covering. After the opening decline a small rally occurred but almost immediately these gains were nullified by a wave of large selling orders, the list going off 11-4 cents before any noteworthy support appeared. Three times the market made sharp 30-to-40-point railies only to recede on fresh pressure. With the improved technical position a better final tone was noted, but final prices were 35 to 53 net lower.

Spot was quiet, 50 points decline, 28.25 for middling upland. Southern spot: Galveston 27.95, 55 points decline; New Orleans, 28.00, 63 points decline; Augusta, 27.75, 35 points decline; Augusta, 27.75, 35 points decline; Houston, 28.00, 50 points decline; Little Rock 28.25, 25 points decline. tracts was traced to profess

American Securities Co.

Built Upon SOUND BUSINESS-KNOWN DEMAND and then Bonded

OUND business is the prime requisite of a bank—discounting com-mercial paper is a business akin to banking, therefore the same rule must apply. Finance and industry progress through known demand.

First Federal Securities Company was organized upon a sound business policy. The organizers were aware of the need of such a concern, but most important, was safeguarding their capital. Their primary purpose is the discounting of first-class commercial paper. This paper carries endorsement of firms of known standing and before a loan is made, it is bonded, protecting the First Federal Securities Company 100% agains: Inca

This, combined with the high earning possibilities, makes this offering of shares a most unusual investment. All stock is common, fully participating, now paying 8% annual dividends, dis-bursed monthly. More details will be gladly furnished upon request.

ANDREW M. SCOTT & CO. Angeles 1019-1021 BANK of ITALY BLDG 64 651

How Successful Men Invest Their Money

MAN who has been successful in making money and building up a fortune is naturally the best qualified to advise others www they can travel the same road of success.

A survey of the cases of several thousand successful investors men well qualified to give financial advice shows that 9 out of 10 follow two simple, easily understood rules-

First, they keep all their surplus funds constantly at work. Second, they make sure of obtaining the best interest rate consistent with safety.

How to apply these fundamental principles; and how to be sure of choosing investments that will give you not only complete safety, but also the best return consistent with safety, is set forth in a booklet published by S. W. Straus & Co. entitled "41 Years Without Loss to Any Investor." This booklet will be sent free on application. Write for it today. Ask for

Royalties in 8 Wells on 19 Acre

This acreage ADJOINS the 6000-BARREL RUSSEL well, the Julia the 6000-BARREL ELLIOTT well—The Associated Oil Company of lease to the north—the Standard Oil Company holds the oil rights west. It is considered absolutely proven.

Two wells are now drilling—a third ready to spud in—the other free ing by July 1st—ALL, in Santa Fe Springs—IN PROVEN PRODUCT AREA.

\$109,500 Per Year
These 8 WELLS in this section of Santa Fe Springs should yield at
4000 barrels each from the Meyer sand — a 1% royalty at that

I have divided these royalties into denominations so the man with \$500 to spare can, for once in his life, buy a royalty in a BIG TRAC a PROVEN AREA.

Share in 100% of Production

These royalties (no matter in what denomination they are purchast ticipate in 100% of the production from ALL 8 WELLS on the acres WITHOUT ANY DEDUCTIONS FOR DRILLING OR OPER

And they bring payment EVERY 30 DAYS by a bank at the market of oil for your definite FIXED PART of the TOTAL PRODUCTION.

Priced from \$500 to \$30,000

These royalties are priced TO SUIT THE POCKETBOOK OF AU matter what amount you are accustomed to investing.

SEE ME TODAY

If you want a REAL BOYALTY in REAL ACREAGE with a REAL of PORTUNITY for REAL PROFITS, see me AT ONCE—DON'T WAIT—may all be gone tomorrow. ACT TODAY.

That Tell Facts the average writer are one of the charms maker's travel articles.—Every week in IMES Illustrated Magazine.

THE NEW YORK COMMERCIAL

NEW YORK, April 16.— Some was heavy including May to July was heavy including the May to July was heavy in purpose to December to March Theory and the May to July was heavy in the July was heavy in J

FREEMAN SMITH & CAMP CO.

Virtually carrying coals to New eastle were the British tank steam-

rest San Leon and Lompoc, sailing today with 180,000 barrels of fuel oil for Tampico, until recently the world's largest oil port. A peculiar situation, in which all oil companies with terminals at Tampico find themselves, is resulting in the dispatch of millions of barrels of Los Angeles oil monthly to the Mexican port.

Long-term contracts, signed several years ago with foreign interests by American oil corporations possessing holdings in Mexican fields, provide delivery from that port. With the unexpected falling off of Mexican production the American concerns have been unable to fuilill their contracts except by the transport of California oil to Tampico, there to be transferred to storage tanks and then reloaded in foreign tank steamers. The bulk of these odd exports come from Los Angeles Harbor, although a small percentage of the refined crude is also to be shipped from San Francisco. The Union oil Company of California figures chiefly in the enterprise, although the Standard oil Company yesterday announced that the tanker Camden and one other steamer will make three or four trips to Tampico from California ports with fuel oil.

Oil Workers Gather

Delegates to the first session of District C, Council of Oil Workers' Union, arrived yesterday for the

de, 3rd and Spring. Phone 604-63

Hold Edison Stock Plan, Edjson Building, Los Angeles, Cal.

DAILY MARKET LETTER OF

ington Beach. The company has operated there during the past two years. It has a lease with one well nearing completion. All the activities of the company there are directed by E. W. Rigle.

After Another Well
At Ventura the Associated Oil Company is clearing ground in Devil's Canyon for another well which will be located to the west of present production in the Ventura-avenue field.

Declares, Dividend
Huntington Signal Oil Company has declared a dividend of 10 per cent on the par value of its capital stock, payable on the 20th inst. The production from the company's well, Hand No. 1 for the month of March amounted to 68.507 net barrels of 26 gravity oil.

Far Authentic Information
With a view to keeping the public as well as the oil operators of CONFETE TEA

With a view to keeping the public as well as the oil operators of Southern California properly informed about legislative matters pertaining to the oil industry, a publicity committee of oil men has been formed in Long Beach with Alex Hursch, vice-president of the Blue Tank group as its chairman.

The new committee, it is announced, will co-operate with the Long Beach Chamber of Commerce in advertising campaigns for the betterment of this city, in addition to keeping before the public accurate information concerning oil legislation and other subjects related to the industry.

Associated with Mr. Hursch on the committee are: J. L. Keck, head of the Keck Syndicate; Charles F. Johnson, representative of the California Chamber of Mines and Oils, and Roy G. Steels, pipe-line operator in the local field.

Mr. Johnson will serve as secretary.

Well indicates New Stratum
Oil men at Long Beach hope that a more productive oil stratum has been opened by Ramsey Brothers' discovery well, B No. 1, which came in Saturday and is still flowing at the rate of 2500 barrels a day. This well, located on city land, will extend the present field more than one mile. Wells in this section, it is said, usually decline after the first day's flush production. The fact that Ramsey Brothers' well is keeping up its initial flow is encouraging to the oil men there.

Coals to Newcastle

Virtually carrying coals to Newtional arrivals are not promised until the first half of next month.

BUTTER, EGGS

Delegates to the first session of District C, Council of Oil Workers' Union, arrived yesterday for the sessions which begin today at Long Beach. Problems of organization of the union, which is said to have a quiet but effective body in the oil-producing section of California, will be taken up, it was stated. J. W. Walker of Orcutt, president of the council, will preside.

Chinese Drill for Oil

Evenn the cautious Chinama believes in oil in this locality. Chinese are putting down a wild-cat well near the Rincon Point in Ventura field. The hole is now down to 1700 feet but will be ceened at a depth of 2600 feet if the drillers pass through promising sand at that point.

The level futures and both closed at the same price of £35.

SUGAR MARKET

Late today the raw sugar mary ket went back to 6 cents cost and freight, the high record price of the year, when, after sales of 6000 hags of Cuban raw sugars to an outport refiner at New Orleans at 15-16 cents, the equivalent of 7.72 cents, duty paid, operators removed some \$0,000 to 20,000 bags from the market at 6 cents, to 7.73 cents duty paid. In the early afternoon outport refiners had indicated their willingness to pay \$15-16 cents cost and freight, but holders then advanced their views to 6 cents cost and freight, but holders then advanced their views to 6 cents cost and freight full be cemented at a depth of 2600 feet if the drillers pass through promising sand at that point.

Aluminum Cooking Set 7

Special Offer for Gas Appliance Week

Throughout the length and breadth of the United States, this week is being observed as "National Gas Appliance Week." What does this mean to you? It can easily mean freedom from the drudgery of "pot watching" — it can mean better and more economical cooking—it can mean more leisure for do-

ing the things you like to do—and in addition it can mean the extra gift of a splendid set of six heavy aluminum cooking utensils. In celebration of "National Gas Appliance Week" we are offering this cooking set as a free premium with each cabinet model Clark Jewel Gas Range equipped with the Lorain Gas Oven Heat Regulator, which is bought this week.

Domestic Science Teachers Use **CLARK JEWEL GAS RANGES**

Equipped with Lorain Oven Heat Regulator

In thirty-one states, colleges and schools are using Clark Jewel Gas Ranges, equipped with Lorain Oven Heat Regulator.

Those who are studying to be teachers of do-

mestic science, naturally require the latest and best obtainable in the way of cooking

equipment. That's why so many of them per-

form their experiments and demonstrations

with Lorain equipped Clark Jewel Ranges. Take advantage of the judgment of those who make it their business to study cooking

from a scientific as well as practical stand-

Salad or Chop Dish \$7.00

To acquaint the great number of people who look upon DONAVAN & SEAMANS as a shop of only the more costly pieces in diamond jewelry, watches and silverware, we are featuring this splendid practical dish of a dozen uses, but especially usable for chops, salads, pastry or frozen desserts.

Measuring 13 inches across in a pretty wavy design at the small sum of \$7.00. This is not to be confused with inferior merchandise sold at this price for it is made of the highest quality of 18% nickel silver base, heavily silver plated and soft grey finish. A splendid Wedding Gift.

DOMESTIC SHOCK ABSORBERS

"Don't talk to me about 'artistic temperaments,' and Mrs. X. bitterly. "We haven't got an artist in our household, or any one with any excuse whatever for indulging in artistic tantigums. But when it comes to indulging in exhibitions of artistic-temperaments the members of my family could make a congress of geniuses look like a prize

"All of which means that I have been meeting a series of ex-plosions of feminine temperament this morning," said Mrs. X. wearily.

The first," she went on, as Mrs. Y. nodded with understanding, "was "The first," she went on, as Mrs. I. nodded with understanding, "was my cook's. She came into my bedroom before I was dressed and announced that she was afraid she couldn't satisfy me any more. I was stunned. I had supposed everything was serene. But it seems that I had mentioned after dinner last-night that the roast beef was a little overdone. The cook reminded me of this and burst into loud, heart-rending sobs. I talked to her for half an hour before I had quieted her down. But I told her that I liked her cooking better than that of any sook I had ever had, and that I was very fond of her personally. I added that I couldn't live without her and that the whole family was devoted to her and that we'd have to give up housekeeping if she left.

'Then—I learned what was real-calmed down. I discovered that she had had a few brisk words with the cook across the hall about some milk bottles, and as she was all worked up over this she had naturally come in to take it out of me!"

THE ONLY REMEDY

maturally come in to take it out of me!"

SO MANY TROUBLES

"Too bad," said Mrs. Y., with feeling.

"Almost befere she left, my oldest daughter came in, also in tears." Mrs. X resumed. "She mentiened that she had nothing to wear, and that she had nothing to wear, and that she hated the life she was living and wanted to do settlement work. When I got to the source of her grief I found that she had just had a gown fitted by a new dressmaker we are trying, and that the fit was a disappointment. But who got the weight of it?" ended Mrs. X bitterly. "The dressmaker who was responsible for it? Not at all. I got it!

"The next person to drop into my room was my mother," Mrs. X went on, "she cried, too, poor dear. She said old age was a terrishe thing and that no one ought to live beyond 60—she is 68 her-self—and that she hoped she wouldn't encumber the earth much longer. She hinted that it was an awful thing to be a burden on me. But after I had kissed her and petted her a while and got her freesh air, and give out carbon diox—

FROM HOLSTEIN cows Vill Make Rosy Cheeks For Baby

A prominent specialist on infant feeding says that infant mortality could be reduced 50% to feeding on Certified Milk from Holstein Cows. As a meant trouble is caused by inability to assimilate food assential that Affik nearest approaching Mother's milk ould be supplied. Holstein Cows' Milk is very similar on and structure to breast milk, and from it Baby great vitality which is inherent to the large healthy, but the comment of the large healthy, and the comment of the large healthy.

Anden Certified Milk

arly. They will gain rapidly themselves and aid greatly the growth. All but the Holsteins have been discarded from our herd for ur bables' welfare and protection.

For 16 years our efforts have been devoted exclusively to the soduction of a positively pure milk; this naturally led us into a exhaustive study and investigation of every factor and cendinal which had any influence upon the production of this special silk. That our efforts have not been in vain is evidenced by the fact that Arden Certified still enjoys the enviable position as no leading milk for Bables and Invalids.

Most of the best and most celebrated physicians and distitians broughout the world recommend the use of Certified Holstein lik, not only for infant feeding, but for growing children, insilds, convalescents and the whole family.

We possess the evidence of aminent specialists from all mer the country corroborating our views in this matter.

Dr. Chapman of the Bables' Ward, Postgraduate Hospital, aw York, speaking of high butter fat in other than Holstein own' milk, says: 'The use of milk of their grade of richness is tiedly to be followed by digestive disturbances when fed to intents, both by reason of Excessive Calorie Value and formation large fat containing curds.'

Give your Baby a chance to gain by giving it Certified Milk from Holstein Cows and see how quickly the roses will come to its checks and how rapidly it will gain in health and strength.

provides for a legal reapportionment.

J. R. Gabbert of Riverside county said there had been some opposition in his county because of the fear that Los Angeles was trying to "take everything." but that this feeling had been largely dispelled and that there were few who opposed strict, constitutional reapportionment. He said he thought that if his district had one more Assemblyman there would be no opposition whatsoever to any reapportionment measure Los Angeles might agree to.

SUPPORT LACKING

Ralph Arnold, chairman of the Los Angeles county Republican Central Committee, presided. He said Los Angeles had failed to give proper financial support to the reapportionment fight.

The resolutions adopted were proposal.

thorities as part of the investigation.

In a statement issued from
Booth's office, following the action
of Federal officials, he said:

"We have been completely vindicated and shall carry on our work
more vigorously in the future.

"Not only has this investigation
proved entirely favorable to us; it
has served to emphasize the
essential importance of our work
and has given us an opportunity

has served to emphasize the essential importance of our work and has given us an opportunity to prove to those in authority the value of our undertaking.

"It is also noteworthy that we have been able to establish through this inquiry that, while I am not now in any way associated with the Volunteers of America, I have during the last four years, through my recent connection with that organization, been directly responsible for raising for them a greas sum in contributions of more than \$25,000. This fact effectively answers all statements to the contrary."

trary."
United States Attorney Burke in commenting on the action said that no charges had ever been filed against Booth but only an investigation had been made on request of Dist.-Atty. Woolwine.

INDORSED FOR COURT

Civic Bodies Favor Harbor Man a New Police Judge

Resolutions indorsing Clyde W. mith, a resident of the Los Ange-

Smith, a resident of the Los Angeles Harbor district, for appointment as police judge in the proposed all-day court for that section, have been adopted by the San Pedro Chamber- of Commerce, the San Pedre Bar Association and other civic bodies.

Creation of the court was authorized by a recent act of the Legislature. Mr. Smith has been practicing in the harbor district four years and has served in the City Attorney's, Public Administrator's and County Counsel's offices. He served a term as Deputy District Attorney at Prescott, Ariz, also. He is president of the San Pedro Lions' Club.

will arrive today for his one conduct his age. Svend Gade, celebrated Dunish producer and designer, came to America from Copenhagen to stage "Johannes Kreisler."

When Douglas Fairbanks and Mary Pickford were in New York last fall, Miss Pickford decided to engage Svend Gade to design the settings for her next production because he had brought something new to the theater. Gade is now lusy on designs for sets for the new Pickford picture, "Rosita."

"Tilm work is so new and so interesting," said Gade, "that I have decided to remain a long time in Hollywood."

And that is why the people of Amsterdam, Holland, will not see "Peer Gynt" this year.

Gade was under contract to produce this famous Ibsen play at the Royal Theater in Amsterdam, where it was to be presented for an unlimited run, starting May 1.

Signed last night by Joseph M. Schenck to appear as the sister of Norma Talmadge in her present production, "Ashes of Vengeance."

For several days production, at Santa Barbara, where the Talmadge company is busy with exteriors, has been partially held up and take notice at Loew's State Theater Sunday when Mr. and Mrs. Martin Johnson's "Trailing African Wild Animals" will be given its world primiere.

The picture is said to be unlike anything previously shown and offers more thrills and genuine drama than a half-dozen "made-to-order" movies.

"Trailing African Wild Animals" is the adventure diary of Martin Johnson, big-game hunter and American explorer, and big wife in Spring Control of Spring Invalid. Many children were passed up because they offered a too healthy appearance.

RICARDO CORTEZ GETS signed last night by Joseph M.

order" movies.

"Trailing African Wild Animals" is the adventure diary of Martin Johnson, big-game hunter and American explorer, and his wife in their search for Lake Paradise in the heart of British East Africa. More thar two years were spent on this one trip.

old-fashioned paintings that used to be popular in the front parlor, showing a young shepherdess coyly courting a passing cavalier. It exudes a rather sickening perfume of sentiment. While watching the Cinderella put on the Prince Charming's slippers and pressing the flower he gave her in a book, I felt pretty nearly like yelling for the siz.

It is too bad that there is all this pictorial bokum, because the climax and the finish are so good and different from the usual run of flims, that your earlier impressions for a moment come near being reversed.

Some actresses might be able to convince you that they would fall in love with a member of Parliament in the way that the little English shop girl did, but from the way the character is constructed and the way the story starts off Betty Compson doesn't have a chance to, even if she could. She is very stractive as usual and her emotional work very fine, but I'm afraid such a role as this is just a little beyond her natural romantic range. It needs a Mary Pickford to defunde us into believing that it could all the praise in the world for his roll times, has a negligible opportunity as the Member of Parliament, while Anna Q Nilsson has some chance to shine and make the best of it. Cyril Chadwick is commendably good as the villain of the piece.

Herbert Brenon has a well-woven picture, of rather alluring

best of it. Cyril Chadwick is commendably good as the villain of the piece.

Herbert Brenon has a well-woven picture, of rather alluring quality, but it needs a stronger beginning and a middle to prepare for a very worth-while end.

Creatore's playing of "The Dance of the Hours," while just a trifle too restrained yesterday, won a rare tribute of applause. He has rich color and contrast in his directing and seems to modulate his temperamental style more effectively.

SCHOOL TO DEDICATE

June 8 is Set for Pageant by Pioneer Southland Secondary Institution

PARK PLOT

June 8 has been set by the Los Angeles High School as the date of the alumni reunion which will

Angeles High School as the date of the alumni reunion which will include the dedication of a plot of land across the street from the school, which was bought last year by the student body as a memorial park for the members of the school who were in the war, and the celebration of the fitteth anniversary of the founding of the school.

The program is being prepared by a committee of alumni and students under the direction of the principal, W. H. Boush, and will include a pageant in which the development of education will be set forth. Many hundreds of alumni and students will take part in this, according to present plans.

The first class of five members, was graduated in 1875 and included Henry O'Melveny. H. Van der Leck of San Juan Capistrano and the late Mrs. Del Valle.

The Los Angeles High School was the first high school south of the Tehachapi, so the celebration will be in honor of the founding of secondary education in Southern California as well as of the Los Angeles High School.

The alumni number about 10,000 and are in every country of the slobe.

Eskimos Have Strongest Teeth Eskimos Have Strongest Teeth
Less than two Eskimos out
of 100 have any signs of
tooth decay. Chewing coarse
frozen food keeps their glands
active and their teeth safe. One
of the domestic duties of the
women is the chewing of thick
walrus hide to make it pliable
enough for the men to work it
into shoe soles.

Today the soft-cooked foods
of the civilized nations have
allowed the glands to slow
down. As a consequence 98
people out of 100 have decayed teeth.

PLAN LEGITIMATE THEATER GRAIN FUTURES ACT IS UPHELD

Holubar and Associates Propose to Reproduce Some of New York Successes in Hollywood

Stage successes produced by New York's Theater Guild will b Uses Pleading Letter to Get Francisco associates materialize. Recently it was announced that the Exchanges Lose Contest on Ilm man contemplated the construction of a legitimate theater for Hollywood and later a statement was given out to the effect that the roject had been temporarily abandoned because two other parties nade known similar plans.

It is now definitely understood property.

to consummate the deal for the property.

It is now definitely understood that Holubar has not given up the project and that he has dispatched a representative to New York to confer with directors of the Theater Guild with reference te staging some of the greater metropolitan dramatic hits in the contemplated Hollywood play-house.

BEGIN PICTURES SOON
Holubar, who recently returned from Pain Springs, where he had been vacationing with his wife, who in professional life is Dorothy Phillips, celebrated cinema star, will shortly begin production on his first motion picture for the Metro Pictures Corporation, with which concern he recently signed a long-term contract. In the meantime, however, he will confer with his San Francisco associates as to the advisability of starting building operations immediately. A site near Hollywood Boulevard for the proposed theat-rical edifice has gractically been decided upon and negotiations with a said.

To consummate the deal for the proposed theat-rical define and that he has discussed and that Hollubar and Directory and the contendance of the stage plays originally presented by that organization during the rights to reproduce of farmers' co-operative associations, was declared constitutional by the Supreme Court today, the court dividing 7 to 2.

It is probable that both Allen Mollubar and Dorothy Phillips will take part in some of the plays to be produced by the projected Hollywood legitimate theater as both of these cinema celebrities have had a good deal of experience in the dramatic field and it is generally known that both are quite partial to the speaking stage. In any event they will not desarring the proposed theat-rical edifice has gractically been decided upon and regotiations with a period to the stage between pictures only, appearing on the stage between pictures only.

STAR CAST IN "HOLLYWOOD"

James Cruze Among Those to Appear in Production
Which Will Eclipse "Affairs of Anatol"

at Lasky studio, Paramount has announced the complete list of players who will appear in the production. Among those who will have leading parts is Mr. Cruze himself. The producer of "The Covered Wagon," however, will not be the sole representative in directing the produc-tion, for both Cecil B. De Mille, director-general of Paramount, and
